**NOTICE OF ADDITIONAL AMENDMENT TO “NOTICE REGARDING COMMENCEMENT OF TENDER OFFER FOR SHARES OF JUPITER TELECOMMUNICATIONS CO., LTD. BY SUMITOMO CORPORATION”**

Sumitomo Corporation (President and CEO: Susumu Kato; Head Office: Chuo-ku, Tokyo; the “Tender Offeror”) hereby announces the additional amendment to its press release of February 15, 2010, titled “Notice Regarding Commencement of Tender Offer for Shares of Jupiter Telecommunications Co., Ltd. by Sumitomo Corporation” (amended by the press release of March 3, 2010, titled “Corrections to ‘Additional Disclosure Regarding Tender Offer for Shares of Jupiter Telecommunications Co., Ltd. and Notice of Partial Amendment’”) as follows.

The amended portions of the press release have been underlined below.

2 Overview of Purchase

(6) Change in the Shareholding Ratio as a Result of the Purchase  
(Before the Amendment)

Number of Voting Rights Represented by the Shares Held by the Tender Offeror before the Purchase	1,902,078	(Shareholding Ratio before the Purchase: 27.39%)
Number of Voting Rights Represented by the Shares Held by Specially Related Parties before the Purchase	<u>20,204</u>	(Shareholding Ratio before the Purchase: 0.29%)
Number of Voting Rights Represented by the Shares to Be Purchased	875,834	(Shareholding Ratio after the Purchase: 40.29%)
Number of Voting Rights of All Shareholders of the Target	<u>6,859,508</u>	

(Note 1) The “Number of Voting Rights Represented by the Shares Held by Specially Related Parties before the Purchase” is calculated based on the number of voting rights represented by shares held by the respective specially related parties (excluding treasury shares held by the Target). Furthermore, the voting rights include 169 voting rights (as of the end of January, 2010) representing 169 of Target’s shares, which is equal to shares held by directors through a management share ownership plan of the Target (*yakuin-mochikabukai*).

(Note 2) The “Number of Voting Rights Represented by the Shares to Be Purchased” is the number of voting rights

represented by the Maximum Number of Shares to Be Purchased (875,834 shares) in the Tender Offer.

(Note 3) The “Number of Voting Rights of All Shareholders of the Target” is the number of voting rights of all shareholders of the Target as of June 30, 2009 according to the Target’s quarterly report, dated November 12, 2009, for the third quarter in the fiscal year ended in December 2009. However, shares of the Target to be issued or transferred as a result of the exercise of stock acquisition rights or stock subscription rights issued by the Target can also be purchased in the Tender Offer. For such reason, regarding the “Shareholding Ratio before the Purchase” and the “Shareholding Ratio after the Purchase”, we are calculating the denominator as 6,944,780 shares. The calculation is as follows: first, in order to calculate the number of voting rights (6,859,598 rights) represented by the shares (6,859,598 shares), we deduct 80,000 shares (treasury shares held by the Target as of September 30, 2009) from 6,939,598 shares (Target’s issued shares as of September 30, 2009 as described in the quarterly report above), and then add the number of voting rights (85,182 rights) represented by the shares of the Target which are subject to stock acquisition rights and stock subscription rights as of September 30, 2009 (this includes the Target’s shares issued or transferred as a result of the exercise of stock acquisition rights or stock subscription rights from October 1, 2009 until the date hereof).

(Note 4) Since the shares held by specially related parties can also be purchased in the Tender Offer, when there is a tender from a specially related party, purchase will be made for such tendered shares in their entirety or by the method of proportional distribution. Upon such purchase, the abovementioned “Shareholding Ratio after the Purchase” will be below 40.29%.

(Note 5) With respect to the “Shareholding Ratio before the Purchase” and “Shareholding Ratio after the Purchase”, any fraction less than a thousandth digit is rounded of to the closest hundredth digit.

(After the Amendment)

Number of Voting Rights Represented by the Shares Held by the Tender Offeror before the Purchase	1,902,078	(Shareholding Ratio before the Purchase: 27.39%)
Number of Voting Rights Represented by the Shares Held by Specially Related Parties before the Purchase	<u>20,210</u>	(Shareholding Ratio before the Purchase: 0.29%)
Number of Voting Rights Represented by the Shares to Be Purchased	875,834	(Shareholding Ratio after the Purchase: 40.29%)
Number of Voting Rights of All Shareholders of the Target	<u>6,860,110</u>	

(Note 1) The “Number of Voting Rights Represented by the Shares Held by Specially Related Parties before the Purchase” is calculated based on the number of voting rights represented by shares held by the respective specially related parties (excluding treasury shares held by the Target). Furthermore, the voting rights include 175 voting rights representing 175 of Target’s shares, which is equal to shares held by directors through a management share ownership plan of the Target (*yakuin-mochikabukai*).

(Note 2) The “Number of Voting Rights Represented by the Shares to Be Purchased” is the number of voting rights represented by the Maximum Number of Shares to Be Purchased (875,834 shares) in the Tender Offer.

(Note 3) The “Number of Voting Rights of All Shareholders of the Target” is the number of voting rights of all

shareholders of the Target as of December 31, 2009 according to the Target's Annual Securities Report for the fiscal year ended in December 2009 (filed on March 25, 2010). However, shares of the Target to be issued or transferred as a result of the exercise of stock acquisition rights or stock subscription rights issued by the Target can also be purchased in the Tender Offer. For such reason, regarding the "Shareholding Ratio before the Purchase" and the "Shareholding Ratio after the Purchase", we are calculating the denominator as 6,944,126 rights. The calculation is as follows: first, in order to calculate the number of voting rights (6,860,110 rights) represented by the shares (6,860,110 shares), we deduct 80,000 shares (treasury shares held by the Target as of December 31, 2009) from 6,940,110 shares (Target's issued shares as of December 31, 2009 as described in the Annual Securities Report above), and then add the number of voting rights (84,016 rights) represented by the shares of the Target which are subject to stock acquisition rights and stock subscription rights as of December 31, 2009 (this includes the Target's shares issued or transferred as a result of the exercise of stock acquisition rights or stock subscription rights from January 1, 2010 until the date hereof).

(Note 4) Since the shares held by specially related parties can also be purchased in the Tender Offer, when there is a tender from a specially related party, purchase will be made for such tendered shares in their entirety or by the method of proportional distribution. Upon such purchase, the abovementioned "Shareholding Ratio after the Purchase" will be below 40.29%.

(Note 5) With respect to the "Shareholding Ratio before the Purchase" and "Shareholding Ratio after the Purchase", any fraction less than a thousandth digit is rounded of to the closest hundredth digit.
