The area's largest redevelopment project will transform Ginza into a world-famous destination

GINZA SIX is the largest mixed-use facility in the Ginza area filled with history and dignity, realized by combining the two sites (1.4ha in total); the former site of the Matsuzakaya Ginza store and its adjacent block, having the overwhelming scale with a 115m frontage along the Chuo-dori avenue in the Ginza 6-chome, a 100m depth, and a 148,700m² gross floor area. GINZA SIX contains various city functions to people coming from all over the world in addition to the retail facility open on April 20th such as the "Kanze Noh Theater," which will become a base for traditional performing arts that Japan is proud to present worldwide; a Tour Bus Bay and a Tourist Service Center that will welcome domestic and international visitors; the largest Rooftop Garden in Ginza area with 4,000m², where the four seasons of Japan can be enjoyed; an office area with the largest standard floor (6,140 m² lease area) in Tokyo; and the disaster prevention support function such as a disaster reserve warehouse etc.. GINZA SIX will transform Ginza into a world-famous destination.

GINZA SIX, a Trend Setter

241 stores are gathered in the largest retail facility (approx. 47,000m²) in the Ginza area. 121 stores – more than half of the total number of stores – are flagship stores. Because Ginza draws so much attention on the global stage, these flagship stores serve as places where brands can define who they are, and display the newest products and richest product lineups, and offer the best services. Facing Chuo-dori avenue, which is a symbol of Ginza, six world-class luxury brands open maisonette shops with unique facades that are designed in the image of "noren" – traditional Japanese eaves and shop curtains associated with welcoming people – to become the new faces of Ginza.

Collaboration with world famous artists and creative professionals is also one of the challenges of GINZA SIX. The central atrium, a symbol of GINZA SIX, is decorated with artwork installations exclusively created for GINZA SIX by Yayoi Kusama, the world-famous avant-garde artist.

GINZA SIX will take over the legacy and history of Ginza as a symbol of Ginza, a world-famous destination. Furthermore, we promise to offer the exclusive and highest level of products and services and unique experiences that can only be had here at GINZA SIX.

Please look forward to the grand opening of GINZA SIX on April 20, 2017.
